HOPE Resolution

HOPE addresses and resolves the following pain points for homeless management from organizational perspective.

- Heavy Reliance on Manual Processes
- Redundant submission & review of information
- Inefficient process for tracking required documentation

- No standard risk analysis and audit management
- Scattered data which is not available for proper data analytics
- Lack of program and project integrity

- Lack of clarity and frequent changes in requirements
- Continuous changes in procedures and policies and no centralized documentation of the changes

- Required forms change frequently, however, timely updates not always available
- Various forms related to their programs and projects.
